Five Star Credit Union now serves all citizens of Grady County

Five Star Credit Union has recently been granted a Community Charter in Georgia to serve all the estimated 25,000 citizens of Grady County, Georgia. Five Star Credit Union already operates a branch in Cairo, located in Grady County, to serve members who were previously eligible to join through employers or family members who were members in the credit union. Other Georgia locations of Five Star Credit Union include Donalsonville, Attapulgus and Cedar Springs.

All residents of Grady County are now eligible to join at any Five Star Credit

Union location and apply for a free checking with dividends account.

Unlike a bank, a credit union abides by the field of membership guidelines defined by the charter under which they operate. Five Star Credit Union already maintains a community charter in Alabama, serving nine counties and in Decatur County GA. Five Star Credit Union will also continue to enroll additional employer groups in Grady County and other counties they serve in Georgia, extending the benefit of credit union membership to employees and their families.
